about us

Few know timber better than Green Links. We are a leading trader in processed timber products. Founded in 2006 by a group of visionaries with over 4 decades of rich and diverse experience in log contracting, timber trade and manufacturing of engineered timber-based products. We are a renown exporter of processed timber products to India and enjoy an excellent industrial reputation, globally. Our customer centric approach, commitment to quality and reliability has enabled Green Link to garner the trust of some of the most reputed companies in the Indian market.

We have achieved business operations across the globe.

With a vast sourcing network of manufacturing facilities spread across South East Asia, we are perfectly positioned to meet the growing global demand for wood products of the finest quality. Our principal activities include Log Contracting, Saw Mill Operations and Manufacturing of Engineered Products such as Plywood, Face Veneer, Doors, MDF, Flooring and Decking.

Our Consulting & Engineering Division has successfully finished project deliveries of a Saw Mill in Sharjah, UAE and a total of 5 face veneer manufacturing facilities in Mandalay and Bago, Myanmar. It offers quality, long-term consulting solutions and delivers turnkey projects to Sawn Timber, Face Veneer and Plywood industries. Consulting modernizes existing manufacturing facilities to optimize production, lower costs, increase productivity and improve profitability. Turnkey project deliveries provide end-to-end solutions from designing state of the art, high-efficiency manufacturing facilities, machinery and equipment supply, project management, installation, testing and training.

Green Links is an ethical and socially responsible organization that believes in adding long term value by conducting business in an environmentally sustainable way. The company employs a team of dynamic, responsible, innovative and dedicated experts with a high level of integrity and commitment to good corporate governance.

plywood

BWR Grade Ply

We manufacture BWR-grade plywood and imported Gurjan with hand-picked veneers.

- Express diffusion treatment for Gurjan
- Preservation with Boron compounds
- IS-certified resins, dimensions & tolerance

Marine Ply

Imported Gurjan round logs are steamed before oil-extraction in wood which enables unmatched bonding ability & material strength in MR Grade adhesives. Our glue shear strength is on par with the BWR Grade.

- Made of 100% Gurjan species
- IS-certified resin bonding per plie
- Hot soak treatment-aided microbe resistance

MR Grade Ply

Imported Gurjan round logs are steamed before oil-extraction in wood which enables unmatched bonding ability & material strength in MR Grade adhesives. Our glue shear strength is on par with the BWR Grade.

film faced plywood

Every contractor's favorite, high-strength plywood that is especially suited for system formwork. These tough panels maintain their shape regardless of humidity, withstand heavy loads and vibrations caused during construction.

Features

- Smooth, maintenance-free surface
- High-load bearing capacity
- Low maintenance
- Ready for use

Applications

- Concrete shuttering
- Framework
- System formwork
- Farm building
- Sport facilities
- Vehicle walls, inner linings, bulkheads
- Formwork for beams and pillars
- Offices and mezzanine floors

Wear resistance

Taber value up to 800 R with 220 g/m² coating

Thickness

12 mm | 15 mm | 18 mm | 21 mm

Sizes

1220/1250 mm x 2440/2500 mm

Base plywood

Pine, Poplar, Birch, Combi or Rubber

veneers

Enhance your projects with the beauty of handpicked timber. Our veneering unit based in Myanmar makes the best structural pieces for commercial as well as decorative uses. Rooted in innovation and tech, our unique veneers in Gujran, Teak and more are made for the ever-evolving needs of the global wood industry.

sawn timber

High-quality timber for high-demand projects. Our sawn and planed timber range features Teak, Kempas, Merbau, Bangkirai (Yellow Balau), Kapur (Kapor), Red and Yellow Meranti. They are sized in standard grades, sorted by strength and meet every industry standard world over.

flooring & decking

Explore a range of high-quality, low maintenance decking that is suitable for every need. Different surface finishes combined with elegant colours result in unmatched choices that look great and stay that way. The durable deck planks can also be fitted customised to offer barefoot safe anti-skid surfaces.

furniture

Our large selection of furniture brings beauty and functionality to every project. From living rooms where families can be themselves to complete, coordinated corporate offices with balanced spaces for work and relaxation, experience quality furniture that leaves a lasting impression.

doors

Doors are the first impression of a space. Our strong doors aren't just aesthetically pleasing but also water and heat resistant.

Made from the finest quality timber for high-performance and quality, our doors are extremely durable and instantly elevate the ambience of your space.
